

Travis Air Force Base Environmental Restoration Program

OT010

September 2020

Site Name: Former Sludge Disposal Area

Site Description: The former Sludge Disposal Area is located near an inactive sewage treatment plant between Union Creek and multiple oxidation ponds. The site encompasses 16 acres and currently contains a sewage lift station and overflow ponds. Metals and TPH have been detected in the soil at this site.

Selected Remedy: Based on human health and ecological assessments of the potential risks posed by the contaminants, the North/East/West Industrial Operable Unit Soil, Sediment, and Surface Water Record of Decision selected No Action for the soil at this site. Since there are no other media of concern associated with the former Sludge Disposal Area, the site is closed.
